Ineffective Search UI

Affordance to frequent actions

Overwhelming data

Irrelevance to persona/ usage

Navigation & hierarchy

Inability to adapt to viewports

Our Design Journey

User Research

Persona Analysis

Charles Ray

I want that perfect cut when I do a wholesale shopping

Goals

To get insightful and decision-driven shopping experience

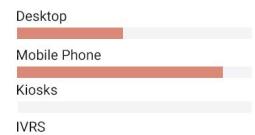

Frustrations

Need to go through too many criteria to get to an item of choice

Bulk Shopping Preferences

Channels

Ken Lee

I don't want to search for stuff all day

Goals

To manage the inventory and sales at ease

Frustrations

Need to go through too many criteria to get to an item of choice

Store Mgmt Preferences

User Research

Empathy Mapping

User Research

Journey Mapping

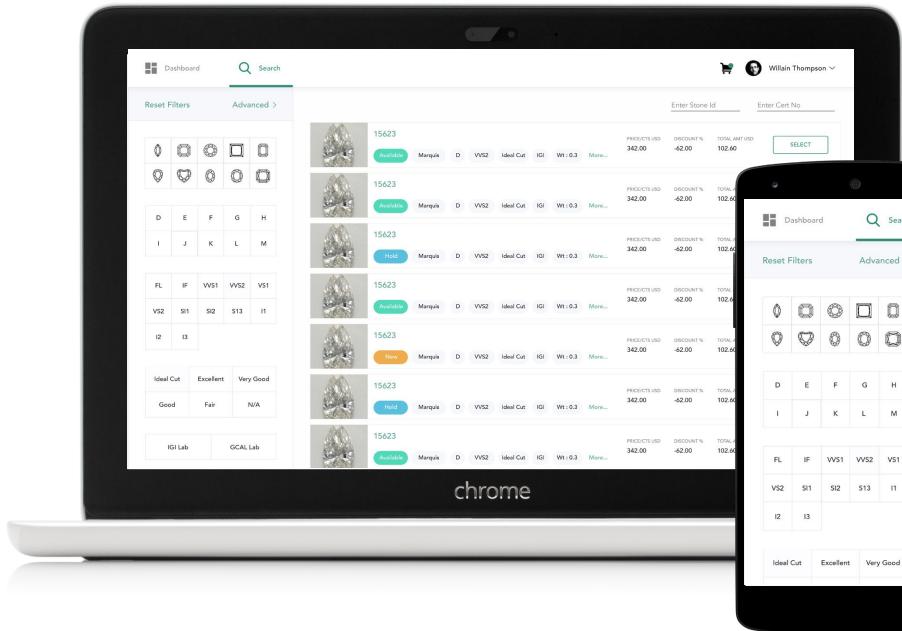

- 100 round diamonds with 6.4mm dimension & VS2 clarity
- 30 1CT diamonds for earrings with 7.5mm dimension
- 20 Marquise diamonds for necklaces with ideal cut

The Redesign Philosophy

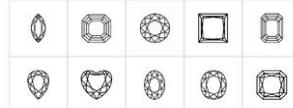

- Ineffective Search UI -----> More Filtering & Less Searching
- Affordance to frequent actions -----> Prominence to Saved/Recent Searches
- Overwhelming data -----> Show Insights and not just data
- Irrelevance to persona/ usage -----> Display basic information first
- Navigation & hierarchy -----> Progressive Disclosure
- Inability to adapt to viewports -----> New age, responsive UI

- Tags support power search
- Responsive layout, clear CT

The ROI

Less time searching for an item and more time buying an item of choice

Faster learning owing to the usage of common metaphors and conventions

Users felt comfortable in the buying process owing to clear and informed decisions they made while searching
